Vandalproof Switch with Large Diameter in Stainless steel

Bulgin's MP0050 is a new large diameter vandal resistant switch. At 32mm diameter the MP0050 is the largest in Bulgin's extensive range of vandal resistant switches. Manufactured from Stainless Steel it is designed to complement the other switches in the range and is available with flush and protruding buttons.

Rated at 5A, 250Vac, with single pole changeover, momentary switching the switch is designed with a minimum life expectancy of 1,000,000 mechanical operations and 35,000 electrical. The temperature rating is from -20 to +70 °C and with front panel sealing to IP68 it is ideal for external applications.

As with the others in the range the MP0050 lends itself to door entry and access control applications along with many other uses such as; car park barriers, emergency telephones, panic buttons, vending machines, lifts, petrol pumps and food processing. The larger diameter button will also benefit the visually impaired.
