### Bluetooth Adapter Replaces Cables with IP68 Protection

Bulgin's new Buccaneer bluetooth cable replacement PX0885, offers users a quick and easy way of replacing cables while retaining IP68 protection.

The Buccaneer Bluetooth cable replacement eliminates data cables and allows any equipment with an RS485 or RS232 data port to communicate using wireless Bluetooth technology. The Master and Slave units automatically establish a data link between themselves, no intervention or special serial commands are required, enabling fast and cost-effective cable replacement or data network extension.

It Provides quick and easy wireless Point-to-Point or Multi-Drop Connections between serial interfaces, or between a PC and remote serial interfaces. It works transparently and simply replaces RS485 or RS232 cables, and is not affected by the data protocol.

Capable of a range of up to 100m (class 1) these units can provide an exciting solution to many conventional wiring problems.
